PROFILE

Cybersecurity Analyst and Penetration Tester specializing in Web/API vulnerability assessment, OSINT, and Threat Intelligence (CTI). Expert in manual testing aligned with **OWASP Top 10**, utilizing **Burp Suite**, **Metasploit**, and **Wazuh SIEM** to uncover critical flaws and deliver actionable, CVSS-scored reports. Selected as a **Stanford-funded Career-Prep Fellow (AMAL Academy)** among 3,400+ applicants. Founder of **Tech Hierarchy** (15k+ reach) and **ICPC 2025 Finalist**, combining offensive security expertise with proven leadership. Ranked **Top 2% globally on TryHackMe**.

SKILLS

Cybersecurity & Pentesting: Web Penetration Testing, Vulnerability Assessment (VAPT), OSINT, Threat Intelligence (CTI), Red/Blue Team Exercises, Digital Forensics, Incident Response, Secure SDLC.

Frameworks & Standards: OWASP Top 10,, CVSS Risk Scoring, NIST CSF, ISO/IEC 27001, MITRE ATT&CK.

Tools & Platforms: Burp Suite, Metasploit Framework, Nmap, Wireshark, Wazuh SIEM, Shodan, Nessus/OpenVAS, Autopsy, John the Ripper, Hashcat, Git/GitHub, Linux (Kali, Ubuntu).

Programming & Scripting: Python (Automation/Scripting), C/C++, Bash Shell Scripting, SQL, HTML/CSS.

Soft Skills: Technical Reporting, Stakeholder Communication, Critical Thinking, Leadership (Tech Hierarchy Founder), Mentorship, Problem Solving (ICPC Finalist).

PROFESSIONAL EXPERIENCE

CTI and Cyber Security Intern, Resecurity Dec 2025 – Feb 2026

- Executed cyber threat intelligence (CTI) investigations including **OSINT research**, threat actor profiling, and structured **vulnerability scanning** with manual validation.
- Deployed and configured Wazuh SIEM for log monitoring and file integrity, supporting red/blue team exercises and producing **enterprise-style reports** with PoC and remediation guidance.

Career-Prep Fellow, AMAL Academy (Stanford-Funded) Dec 2025 – Mar 2026

- Selected among **3,400+ applicants** for a competitive fellowship; applying advanced leadership and problem-solving frameworks to drive cybersecurity awareness initiatives.
- Collaborating on **cross-functional team projects** to bridge technical security concepts with business strategy and professional communication standards

Cybers Security Trainer, IPEI Lahore Nov 2025 – Present

- Developed and delivered a comprehensive cybersecurity curriculum at IPEI covering Networking, Linux, VAPT and Windows Server (ADDS) for **20+ students**.
- Facilitated practical labs using Packet Tracer, Kali Linux, Nessus/OpenVAS, and Metasploit, enabling trainees to identify, **exploit**, and document vulnerabilities in real-world simulated environments.

Cyber Security Instructor, PNY TRAININGS Apr 2025 – Present

- Instructed hands-on training modules for **Vulnerability Assessment & Penetration Testing (VAPT)** and OSINT using Kali Linux, Burp Suite, Nmap, and Metasploit.
- Equipped 20+ students with offensive security skills, directly enabling them to identify and document 50+ critical vulnerabilities across **simulated network infrastructures**.

Teaching Assistant, PUCIT Feb 2024 – Present

- **Mentored 300+** undergraduate students across 4 core courses (Programming Fundamentals, DSA, OOP, DLD), conducting lab sessions on C/C++ implementation and digital logic design.
- Provided one-on-one tutorial support and code optimization feedback on **50+ weekly** submissions, contributing to a **10% increase** in average lab assignment scores for assisted students.

Founder, TECH HIERARCHY

Jan 2024 – Present

- Founded and scaled a student-led tech community by supervising a **20+ member** team, organizing **35+ technical workshops**, and engaging **15,000+** students industry-wide.
- Built strategic partnerships with security professionals and industry mentors to promote **skill development**, career readiness, and practical exposure in **cybersecurity** and software engineering.

PROJECTS

End-to-End Web Application VAPT (SAST + Manual Pentest)

- Uncovered **8+ high/critical vulnerabilities** (SQLi, XSS, Insecure File Upload, Missing Rate Limiting) via manual Burp Suite interception of payment flows, directly preventing potential data breaches and financial fraud.
- Delivered a developer-ready report with **PoC validation**, CVSS risk scoring, and remediation steps for exposed merchant keys and logic flaws, ensuring secure deployment before launch.

Metasploitable 2 Exploitation Lab – Service-Based Vulnerability Assessment

- Executed full service enumeration and exploitation chain on **4+ critical services**, successfully gaining remote access via vsftpd backdoor (**CVE-2011-2523**), Samba usermap (**CVE-2007-2447**), and UnrealIRCd (**CVE-2010-2075**).
- Documented findings with precise **CVE references**, reproduction steps, and patching strategies, demonstrating mastery of legacy system hardening and exploit mitigation.

OSINT Exposure Assessment via Shodan

- Leveraged **Shodan** device indexing and banner grabbing to identify internet-exposed HELO Plus broadcast encoders in Denmark, filtering by geographic metadata and open port 80 services.
- Validated live video encoding systems with unauthenticated access, highlighting risks of **publicly exposed IoT assets** and providing recommendations for network segmentation and firewall rules.

Digital Forensic Investigation: Data Exfiltration Case

- Investigated a simulated data breach caused by email spoofing, utilizing **Autopsy** for disk forensics and header analysis to trace the attack vector and identify exfiltrated confidential files.
- Reconstructed the timeline of the incident and produced an incident response report detailing the **root cause**, scope of data loss, and email authentication improvements to prevent recurrence.

HONORS AND ACHIEVEMENTS

Top 2% Global Rank (TryHackMe)

Completed **120+ rooms** and earned **20+ badges** in offensive security challenges.

Community Leader

Founded **Tech Hierarchy**, scaling to **15,000+ members** and organizing **35+ technical workshops**.

ICPC 2025 Finalist

Advanced to regional finals among top competitive programmers; solved **150+ algorithmic problems** on Codeforces.

CERTIFICATES

ISO/IEC 27001 Information Security Associate — Skill Front | 2025

Certified in Cybersecurity (CC) — ISC2 | 2025

Certified Cybersecurity Educator Professional — Red Team Leader | 2025

EDUCATION

Bachelor of Science, Software Engineering, PUCIT

Sep 2023 – Present

Intermediate - ICS, Punjab Group of Colleges

Aug 2021 – Sep 2023
